Why Grain Free?

Consumers are continually looking for ways to improve or maintain their health – especially when it comes to food. One common trend is to remove highly processed and refined foods – the largest source of which often come from grains. Grain free foods provide a more whole-food alternative to daily menu items like granola! Our grain free granola is a great option for breakfast, as a snack or as a dessert topper. Delicious and easy to eat crunchy nut & seed clusters provide an excellent way for your customers to eat fewer grains.
